By embracing a green future, we can create a healthier, more equitable, and sustainable world for ourselves and future generations. It is not just a choice but a necessity for our planet's survival and well-being. Let's Do It like we are practicing

IMPACT

Women Entrepreneurship Training Programs are equipping women with valuable skills in various fields, enhancing their employability and entrepreneurial capabilities.

Education of underprivileged fosters holistic growth, developing not just academic skills but also critical thinking, creativity, and social skills, preparing individuals to face future challenges.

By promoting sustainability and environmental conservation is increasing community awareness about ecological issues. This is leading to behavior changes that reduces environmental impact, such as recycling, conserving water, and reducing energy consumption

By focusing on these areas, NGO is making a meaningful difference in the lives of individuals and contributing to a sustainable and equitable future with holistic growth & women empowerment.

PLANTATION DRIVE

PLANTING SEEDS OF CHANGE FOR GREENER TOMORROW:

Yash Sewa Samiti organised a plantation drive with children & ladies of Indira Jhuggi part -4 . Sarita Bhatia explained them the need of such drives to secure their present and also future of coming generations.

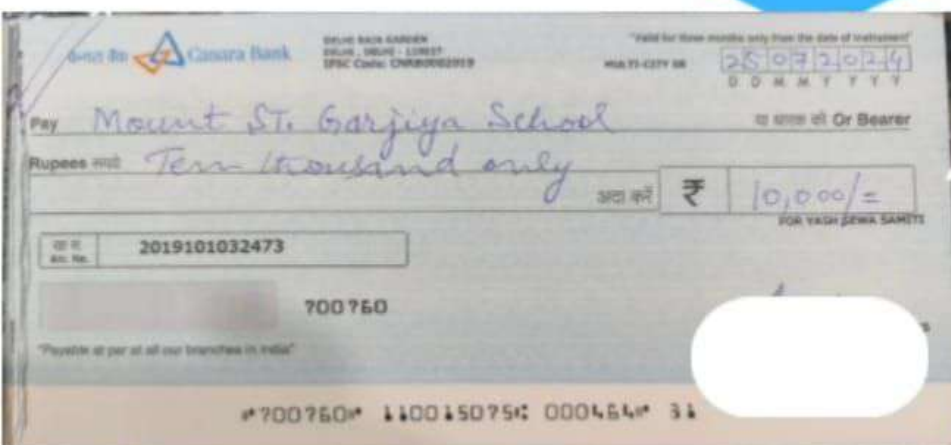

All the plants of blackberries , mango, tulsunia were first grown in Pots then shifted to Park. Many guthlies of mangoes collected at home also seeded in the park for green future. Many saplings of Tulsi, curry patta, Aloe vera , papaya and seeds of plants were distributed
